

“ To see the world as others see it and to allow for the possibility that others may see something that we have failed to see, or may see it more accurately ”

Fulbright Thailand

Testimonial

"To me, Fulbright is a tide that carried me to shore, but more than that, it's also a braid of waterways linking me to others who share the same ideals. Over the past year, I've met many wonderful Fulbrighters who are astonishingly passionate about their field and heard tons of stories about how they yearn to make this world a better place. These experiences are like rekindling flames that will keep thrusting my heart to go on until reaching the finish line of this journey."
